### **DETAILED ACTION**

This action is in response to Amendment filed June 4, 2004. Claims 1 and 21 have been amended and claim 25 has been cancelled as requested by the applicant.

#### ***Response to Arguments***

Applicant's arguments, see Amendment, filed June 4, 2004, with respect to claims 1 and 21 have been fully considered and are persuasive. The rejection of claims 1 and 21 has been withdrawn.

#### ***Allowable Subject Matter***

Claims 1-24 and 26-30 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art of record fails to teach or suggest the use of an imaging device comprising a convex mirror, an imaging mechanism and an optical member for guiding the light toward the convex mirror and from the convex mirror toward the imaging mechanism, and the optical member holds both the convex mirror and the imaging mechanism without a separate housing.

Art Unit: 2872

Regarding claims 14 and 21, the prior art of record fails to teach or suggest the use of an imaging device comprising a convex mirror, an imaging mechanism and an optical member for guiding the light toward the convex mirror and from the convex mirror toward the imaging mechanism, and the optical member being formed integral with the converging lens of the imaging mechanism. The Driscoll reference does not include an integral converging lens and to make the Driscoll converging lens integral with the optical member would require the removal of the Driscoll correcting lens, thus making the Driscoll invention inoperable.

The remaining claims are dependent from claims 1, 14 and 21 and are therefore allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
